

Forever fast that standard sheet—
Where breathes the foe but falls before us?
With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us!

From Gen. Hooker's Army.

Our dispatches are to the afternoon of Tuesday. There is no decisive result. Fredericksburg has been retaken by the rebels. The position of Hooker on the right is reported satisfactory, and General Heintzelman is reinforcing him from Washington. We see no reason for despondency, but believe that our arms will be finally victorious, though at great loss of life.

Vallandigham Arrested.

This pestilent traitor and demagogue was arrested at his residence at Dayton, Ohio, yesterday, by a party of soldiers sent by Gen. Burnside for that purpose. One of the charges against him is that in his Mount Vernon speech he denounced the Government and the orders of Gen. Burnside, counseled resistance. This, it is said, will not be the only charge against him. We trust he may have a speedy trial, and if guilty, punished. Small traitors have been arrested and convicted, while fellows of the Vallandigham altitude, more guilty than they, have been permitted to poison the public mind by recommending resistance to the laws of the land, and the orders of commanding generals. This must be treason, by aiding the rebels, or there is no meaning to the word. Let the scoundrels who do this work be tried and punished speedily, and not martyred by a long incarceration in prison without trial. Vallandigham is a good subject upon which to begin the new deal with traitors, and we hope to see him put through according to his deserts.

SOUTHERN REFUGEES.—An expedition of gunboats recently went up the Tennessee river from Paducah to Eastport, Tenn. About 100 Union refugees were found along the river, who had been driven from their homes by their rebel neighbors. They consisted of families, and had little to subsist upon. Some of them have left very fine farms and all their stock. These refugees were brought north. An exchange ought to be made by sending northern rebels south, so that our soldiers may have all their enemies in front. Whatever hardship and wrong is perpetrated upon Union men south should be retaliated upon the friends of Jeff. Davis in the north, so far, at least, as to compel them to live under the southern confederacy which they aid by word or deed.

Some of the principal copperhead editors of Anna, in Southern Illinois, have been arrested. They are charged with acts of disloyalty, in assisting deserters. Among them are those who have been persecuting Union men, by cutting down their orchards, &c. The disloyal people are in great terror on account of these arrests, and are fleeing from their homes. Among them is a member of the state senate of Illinois.

The Unionists of Des Moines, Iowa, have elected their mayor and eleven aldermen after a close contest. Last year a pro slavery mayor was elected by about 100 majority.

It is now stated as certain that Gen. Chas. S. Hamilton of this state has resigned his commission. The reason is not given.

CONFIRMED.—The Wisconsin of yesterday says: The sale of the west division of the La Crosse railroad was confirmed in the United States court this forenoon.

PROVOST MARSHAL OF THE ROLLA DISTRICT.—Lieut. A. H. Blake, 20th Wisconsin, was on Friday last, by the deputy provost marshal general, appointed provost marshal for the district of Rolla, Mo.

It is rumored that two more companies of the 39th regiment will shortly leave Madison, and Superior in this state is spoken of as their probable destination.

THE HOSTILE SIOUX.—The Minnesota Pioneer says the rolls of the hostile Sioux show that they have about 5,000 warriors, who have been at large on the plains, conducting plans for further depredations as soon as the season would permit them to move. In the southwestern part of the state, all the population got driven off is confined within stockades and military lines.

HORRIBLE AND DREADFUL.—A correspondent of the St. Louis Democrat, writing from Lebanon, Mo., says that a gang of guerrillas recently murdered, in a most horrible manner, a farmer named Obadiah Smith, of Cedar county, and seven members of the 8th regiment M. S. M. The rebels were dressed in federal uniforms, and thus deceived our men, whom they threw in a heap like dogs after they had murdered them. Kindness to such wretches is a crime against Heaven.

The Leavenworth Conservative learns that Gen. Blunt has ordered the 1st Kansas Colored (Col. Williams), and a section of Maj. Blair's battery, to Baxter's Springs, in the extreme southeastern portion of Kansas. This movement has been considered necessary from the threatening state of affairs in Northwestern Arkansas.

THE CONSCRIPTION LAW.

Causes of Exemption.

The instructions for Provost Marshals and other officers under the conscription law are about to be issued by the war department. The following is an extract from the regulations in regard to exemptions:

35. The following diseases and infirmities are those which disqualify for military service, and for which, only, drafted men are to be "rejected as physically or mentally unfit for the service," viz:

1. Manifest imbecility or insanity.
2. Epilepsy. For this disability the statement of the drafted man is insufficient, and the fact must be established by the duly attested affidavit of a physician, of good standing, who has attended him in a consultation.
3. Paralysis, general or of one limb, or chorea; their existence to be adequately determined.
4. Acute or organic diseases of the brain or spinal cord; of the heart or lungs; of the stomach or intestines; of the liver or spleen; of the kidneys or bladder, sufficient to have impaired the general health, or so well marked as to leave no reasonable doubt of the men's incapacity for military service.
5. Confirmed consumption; cancer; aneurism of the large arteries.
6. Inevitable and extensive disease of the skin, which will necessarily impair his efficiency as a soldier.
7. Decided feebleness of constitution, whether natural or acquired.
8. Scrofula or constitutional syphilis, which has resisted treatment and seriously impaired his general health.
9. Habitual and confirmed intemperance or solitary vice, in degree sufficient to have materially enfeebled the constitution.
10. Chronic rheumatism, unless manifested by positive change of structure, wasting of the affected limb, or puffiness or distortion of the joints, does not exempt. Impaired motion of joints and contraction of the limbs, alleged to arise from rheumatism, and in which the nutrition of the limb is not manifestly impaired, are to be proved by examination while in a state of anesthesia, induced by ether only.
11. Pain, whether simulating headache, neuralgia in any of its forms, rheumatism, lumbago, or affections of the muscles, bones or joints, is a symptom of disease so easily pretended that it is not to be admitted as a cause for exemption, unless accompanied with manifest derangement of the general health, wasting of the limb, or other positive sign of disqualifying local disease.
12. Great injuries or disease of the skull, occasioning impairment of the intellectual faculties, epilepsy, or other manifest nervous or spasmodic symptoms.
13. Total loss of sight; loss of sight of right eye; cataract; loss of crystalline lens of right eye.
14. Other serious disease of the eye affecting its integrity and use, e. g.: chronic ophthalmia, fistula lachrymalis, ptosis (if real), ectropion, entropion, &c. Myopia, unless very decided or depending upon some structural change in the eye, is not a cause for exemption.
15. Loss of nose; deformity of nose so great as seriously to obstruct respiration; osseous, dependent upon caries in progress.
16. Complete deafness. This disability must not be admitted on the mere statement of the drafted man, but must be proved by the existence of positive disease, or by other satisfactory evidence. Perforated eardrums.
17. Caries of the superior or inferior maxilla, of the nasal or palate bones, if in progress; left palate (bony); extensive loss of substance of the cheeks, or salivary glands.
18. Dumbness; permanent loss of voice; not to be admitted without clear and satisfactory proof.
19. Total loss of tongue; mutilation or partial loss of tongue, preventing the mutilation of the tongue enough to interfere with the necessary use of the organ.
20. Hypertrophy or atrophy of the tongue, sufficient in a degree to impair speech, or deglutition; obstinate chronic ulceration of the tongue.
21. Stammering, if excessive and confirmed; to be established by satisfactory evidence, under oath.
22. Loss of a sufficient number of teeth to prevent proper mastication of food and learning the carriage.
23. Incurable deformities or loss of part of either jaw, hindering biting of the carriage or proper mastication, or greatly injuring speech; ankylosis of lower jaw.
24. Tumors of the neck, impeding respiration or deglutition; fistula of larynx or trachea; torticollis, if of long standing and well marked.
25. Deformity of the chest sufficient to impede respiration, or to prevent the carrying of arms and military equipments; caries of the ribs.
26. Deficient amplitude and power of extension of chest. A man five feet three inches (minimum standard height for the regular army) should not measure less than thirty inches in circumference immediately above the nipples, and have an expansive mobility of not less than two inches.
27. Abdomen grossly protuberant; excessive obesity; hernia, either inguinal or femoral.
28. Artificial anus; stricture of the rectum; prolapsus ani. Fistula in ano is not a positive disqualification, but may be so if extensive or complicated with visceral disease.
29. Old and ulcerated internal hemorrhoids, if in degree sufficient to impair the man's efficiency. External hemorrhoids are no cause for exemption.
30. Total loss or early total loss of penis; epispadia or hypospadia at the middle or near the root of the penis.
31. Incurable permanent organic stricture of the urethra, in which the urine is passed drop by drop, or which is complicated by disease of the bladder; urinary fistula. Recent or spasmodic stricture of the urethra does not exempt.
32. Incontinence of urine, being a disease frequently feigned and of rare occurrence, is not of itself a cause for exemption. Stone in the bladder, ascertained by the introduction of the metallic catheter, is a positive disqualification.
33. Loss or complete atrophy of both testicles from any cause; permanent retention of one or both testicles within the inguinal canal; but voluntary retraction does not exempt.
34. Confirmed or malignant sarcocele; hydrocele, if complicated with organic disease of the testicle. Varicocele and crissalis are not, in themselves, disqualifying.
35. Excessive anterior or posterior curvature of the spine; caries of the spine.
36. Wounds, fractures, tumors, atrophy of a limb, or chronic diseases of the joints or bones, that would impede marching or prevent continuous muscular exertion.
37. Anchylosis or irreducible dislocation of the shoulder, elbow, wrist, hip, knee, or ankle joint.
38. Muscular or cutaneous contractions from wounds or burns, in degree sufficient to prevent useful motion of a limb.
39. Total loss of a thumb; loss of ungual phalanx of right thumb.
40. Total loss of two fingers of the same hand.
41. Total loss of index finger of the right hand.
42. Loss of first and second phalanges of the fingers of right hand.
43. Permanent extension or permanent

Last Night's Report.

New York, May 6.

The Evening Post's Washington advice says that the destruction of the railroad bridges over the Massaponax and Mattaponi creeks, south of Fredericksburg, has certainly been accomplished, and the road to Richmond is thus cut off to the enemy. 800 prisoners, including an entire regiment, the 23d Georgia, were brought to Washington this morning, and marched down Pennsylvania Avenue to the old capitol prison.

The prisoners were the subject of universal comment and remark. They were well and comfortably clad, and not at all looked as though they had not had enough to eat.

Two officers—Maj. Gen. Evans of South Carolina, and a brigadier general whose name was not learned, were prominent among the number. Evans was in command at Leesburg during the Battle of Bull Run.

The Bulletin has issued an extra containing news from today's Washington papers.

Fitzhugh Lee is a prisoner in Washington. There is a report that we have captured over 5,000 prisoners.

The Washington Chronicle of today has the following:

A gentleman who left Falmouth early yesterday morning, reports that early Sunday morning, simultaneously with the commencement of the battle on the right, our batteries on the left opened on the rebel defences of Fredericksburg, which were replied to smartly by the rebels, but their fire gradually slackened.

Our infantry immediately moved forward, under direction of Gen. Sedgwick. The rebels had bayonets fixed, and, presenting a front, moved on steadily until they reached within a few hundred yards of the famous stone wall.

They met with a most murderous fire of infantry, while grape and canister plowed through their ranks.

Still they pressed forward, and the wall was cleared and the ridge gained.

The brave boys, with a cheer, pushed on, toward the second line of entrenchments, but an order checked them from returning, which was complied with, but with a great deal of reluctance.

The opinion gained ground, that it was necessary not to drive them much farther, as this would prevent our forces on the right reaching their rear.

So great was the panic of the rebels that they abandoned cannon, arms, knapsacks and everything else that would in the least impede their flight.

The works were held all day, without any desperate efforts on the part of the enemy to drive our forces from them. They kept up a pretty sharp skirmish, and occasionally made sallies out of their second and third lines of entrenchments, but were invariably driven back.

Upwards of 1300 prisoners were taken in the engagement, mostly belonging to Mississippi, Georgia and Virginia regiments. A large number of officers, from colonel down, were taken.

CINCINNATI, May 5.
Vallandigham was removed from the military prison to-night, and is now confined in the Newport barracks. Troops have been sent from Columbus this evening, to quell the Dayton disturbance.

The following particulars of the affair have just been received: There has been a good deal of excitement to-day, but no disturbance occurred till after dark. Groups of people have congregated on the street corners discussing the arrest of Mr. Vallandigham, and denouncing the manner in which it was done. A large number of wagons with Vallandigham's friends came in from the country, and joined in the crowd.

A dark company of between 500 and 600 persons proceeded to the Journal office, and commenced knocking and yelling. Presently some few bricks and stones were thrown, breaking in the windows and doors. Soon after several pistol shots were fired into the building, and the torch was applied. The Journal building was soon completely gutted, and the flames spread to the adjoining stores.

One man in the crowd was severely injured by a brick thrown by a rowdy. The fire spread to the hat store of Leobold, the cigar store of Danson & Boushain and the Gospel Herald office, and of as far back as Shields' livery stable, all of which were completely destroyed.

There is a rumor that one bridge on the Xenia railroad towards Columbus, has been destroyed. All the wires throughout the city have been cut down, and the up town office has been closed.

At 11 o'clock the mob quieted down, and the troops were on the ground guarding the engines, which were at work.

John Lowe's house was attacked and some windows broken open, when the troops dispersed the crowd. At 11:30 p. m. all was quiet.

Cairo, May 5.
Special to Chicago Journal.—The steamer Lady Franklin arrived this morning from Vicksburg, bringing important news. She left there Thursday night.

On Thursday morning, Gen. Sherman with a fleet of transports, accompanied by several gunboats, the new Choctaw in the lead, passed up the Yazoo river, and made an attack on the rebel batteries. At one o'clock in the afternoon several more transports followed up, with troops on board.

The report is that General Sherman has landed at precisely the same place he landed when he made the former attack. Each transport is armed with three guns.

Cannonading and the rattling of musketry was distinctly heard at Young's Point from 9 o'clock Thursday morning till long after night-fall.

I have seen a gentleman who left New Carthage (below Vicksburg) on Wednesday. A heavy force had been landed on the Mississippi side, eight miles above Grand Gulf. Our gunboats had been shelling the latter place for several days. It appears we do not yet occupy it.

There certainly will be co-operation with Sherman from the other side of Vicksburg.

New York, May 5.
This city is filled with rumors, which are undoubtedly founded on mere guess-work, as nothing is yet allowed to come over the wires by the censor at Washington.

The Philadelphia Inquirer has a dispatch purporting to be from Washington yesterday, stating that a telegram from Lee to Richmond was intercepted, calling for reinforcements and announcing his entire inability to hold out two days longer unless they are sent.

Stoneman's cavalry is in the rebel rear, and is said to have cut the Virginia Central and the Fredericksburg and Richmond railroads, near Milford Station, southwest of Chancellorsville, tearing up five miles of the track; capturing a rebel supply train, and thus cutting off all communication with Richmond.

Common Council.—The regular meeting of the council will be held to-morrow evening.

For the Daily Gazette.

Priorities.—The place to get your pictures taken well is at Clark's, near Mosely's book-store. Satisfaction warranted.

Religious.—Rev. G. W. Lawrence will preach at Richmond, Walworth county, Sunday, May 17th, 11 A. M., on occasion of the death of Wm. Patterson, jr., member of Capt. Isaac Miles' company, 22d Regiment Wisconsin volunteers. Discourse at the school house, or in the grove, near Wm. Patterson's.

Rebels.—The rebel raid upon Cape Girardeau and south eastern Missouri has terminated. They have been driven out of the department beyond the St. Francis river in Arkansas. Our loss was 25, that of the enemy's much larger.

Emigration from California, this season, is eastward towards Nevada, Colorado and northwestern Mexico. A printing press has been sent to establish a newspaper at Clinton, in the Reese river mining region, 150 miles east of the Washoe mines.

The Property of the Late Senator Douglas.—A Washington letter says that the wife of the late Stephen A. Douglas never joined her husband in the execution of mortgages on his Chicago real estate, and that she is consequently entitled to her rights of dower. She resides in the house in Washington which Mr. Douglas occupied before he built his mansion, now used as a hospital.

A home regiment, of city companies, is being raised in Chicago, and arms have been sent for. John L. Hancock of their board of trade, is to be colonel, and E. L. Brand, of the Ellsworth Zouaves, lieutenant colonel. They hope to fill up the regiment within a couple of weeks.

The Sale of the Western Division of the La Crosse and Milwaukee Railroad.—The Chicago papers are now reflecting an ecstasy of delight over the recent sale of the western division of the La Crosse & Milwaukee railroad, for the reason, as they claim, that it is but a preparatory step to a junction of the Northwestern road with the western division of the La Crosse, thus giving them a direct route to La Crosse, and eventually they hope to extend it to St. Paul.

We believe that any such assumption on their part, is without the least foundation whatever, and doubtless it was started to affect, in some way, the confirmation of the sale of the Western division.

We have every confidence, and it is so regarded generally, throughout the city, that the sale was for the benefit of the Milwaukee & Wisconsin Waterworks, and will soon be extended to Portage, so that, with the city in our city, we shall have a continuous line through the city to La Crosse, and we hope it will eventually be extended to St. Paul. This will place our city, as a market, upon an equal footing with Chicago, so far as railroad advantages are concerned.

—Wisconsin.

The Change of Future Enlistments.—By a general order, issued from the adjutant-general's office, provision is made that from and after May 1, all enlistments of volunteers shall be under the special charge and direction of the provost marshal general, and under the rules and regulations heretofore made, which are hereby continued in force, and such other rules of the department as may from time to time be made. All disbursing officers, and all other officers connected with the enlistment of volunteers, will report to him.

Officers of regiments going out of service by reason of the expiration of their term of enlistment, with the consent of their respective governors, re-enlist their regiments within thirty days for a term of two years, unless sooner discharged; and upon the regiments being filled up within thirty days as aforesaid, the officers shall be restored, with rank as from the date of the original commissions. This, however, will give no pay from the time of mustering out to that of re-entering the service. The law provides for no bounty for men re-enlisting for two years, but a man who enlists for three years, unless sooner discharged, is entitled to one month's pay in advance upon the mustering of his company into the service of the United States, but after he shall have been mustered into and joined the regiment in the service, he is entitled to have a bounty of \$100, \$25 of which are to be paid in advance when his company is re-organized. Men thus enlisted for three years may at the discretion of the governors of their respective states be assigned to duty with the regiments of volunteers leaving the field on account of the expiration of their term of service, with the understanding that they are to be discharged to the place of discharge to be delivered to the governor of the state or to officers appointed by him to receive them. The arms and accoutrements will be held subject to release to the men who re-enlist.—Wash. dispatch to N. Y. Trib.

A Hero.—Dr. Fisher, surgeon of the forty-fourth Massachusetts regiment, relates the following incident of heroic self-sacrifice which occurred during the siege of Washington, N. C.:

I must tell you of one hero who saved a company of soldiers from certain death. A full platoon of soldiers, with a few negroes, attempted to land at Rodman's Point, but were repulsed by a terrible fire of rebel batteries, and the platoon was scattered, and the noble African said: "Somebody's got to die to get us out of this, and it may as well be me!" He then deliberately got out and pushed the boat off, and then fell into the water. Dr. Fisher, who was on the boat, saw the noble African's act, and he was afterwards amputated a leg and rescued a part of one of the men in the boat, but the man of course died.

DRY GOODS

ever offered in Janesville, is now open to

PUBLIC INSPECTION

at the

Great Mart of McKee & Bro.

W. H. McKee has taken advantage of the recent unparalleled fall in the price of goods, to buy up a large stock of goods, which he has now offered at a low price, for the purpose of clearing out his stock, and to give the public an opportunity of buying at a low price.

BOUGHT LARGELY

of first-class importers, who, under the influence of the

fall in the price of goods, have been obliged to sell at a low price.

Sacrificed Many Desirable Goods

at 50 cents on the dollar of the prices ruling one week

ago, and to give the public an opportunity of buying at a low price.

Files of Goods,

the purchase of one of which would double up the

resources of many of the so-called Merchants who

are now struggling for their lives, and to give the public an opportunity of buying at a low price.

FIFTY DOLLARS.
The No. 1 and 2 machines are of great adapt-
ation for manufacturing purposes.
Our No. 1 machines are especially adapted
kinds of light and heavy

LEATHER WORK.

In Carriage Trimming, Root and Shoe Making, new binding, etc., etc. They are of extra size, and are long enough to be used on the most of the old sized harness. There is scarcely any part of the harness which cannot be better done by machine than by hand. The table under these machines is very long, and the staddle will hold six times the quantity of dressed, or raw hides, as the smaller machines.

We would ask for our letter a machine, the name of the Agent, and the name of the Manufacturer, those who want machines for Light Manufacturing purposes. They embody the principles of the machine, and are the most perfect of the kind. They are also designed to be celebrated for Family & Leather and leather manufacturing purposes as our standard machines are made in the most perfect manner.

We always have on hand

Hemming Ganges, Silk Twists, Laces, and Cotton Thread on Spools, &c.

A Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would like all persons using our machine not to buy any but our needles. We know that they are of the best *quality*, at higher price than we charge for the same. The needles sold by us are manufactured especially for our machine. *A bad needle may render the best machine almost useless.*

Our customers may rest assured that all our *Books* are furnished with the *Best*

GENUINE ARTICLE.

In case of small purchases, the money may be sent by post-note or bank cheque.

We have no agents in these places write their names distinctly. It is all important that we should be known to the post office, county and state.

NOTE. All persons ordering information about our Machines, their size, price, work or performance, and best methods of purchasing, can obtain it by sending us, or to any of our Branch Offices for a copy of our
